ARCHBISHOP FARLEY SAYS FAREWELL TO PIUS

Is Given Private Audience by His Holiness and Converses for Half an Hour.

PRESENT FROM THE POPE

ROME, March 12.-Archbishop John M. Farley, of New York, to-day was received by the Pope in formal audience. The meeting occurred in the pontiff's private apartments and for half an hour the Pope held the archbishop in affable and friendly conversation, seated by his side.

Archbishop Farley expressed his regret that he could not personally present his greetings to the Pope on St. Joseph's day, March 19, which is the Pope's name day; but, as he was leaving for the United States on March 18, this would be impossible. He said that from sea his felicitations would be none the less ardent. The Pope was pleased and thanked the archbishop. He said that on that day he would pray

Shelton's Sentence Commuted. WASHINGTON, March 12.- The President has commuted to life imprisonment the sentence of George Shelton, convicted in Indian Territory of rape and sentenced to be hanged on Jan. 15, 1904. Evidence which did not appear at the trial showed that Shelton, who is a negro, twenty-six years old, has been twice an inmate of an insane asylum in Texas, and recent examinations by several physicians show him to be still insane. The new evidence also shows that the woman assaulted, who is a half-breed Indian, bears an unusually bad reputation.

REAL-ESTATE MARKET EXPERIENCES DULL WEEK

Large Dealers, However, Are Satisfied with Present Conditions.

There was a notable increase in the number of real-estate transfers made by the larger dealers last week. Although no large deals were closed, a great many small deals were made, principally for persons who are moving into new homes for the summer.

BUILDING OPERATIONS IN THE LARGE CITIES

Indianapolis showed a loss in building operations for February, 1904, of 49 per cent., compared with February, 1903. An advance proof of Construction News says: "Statistics of building operations in twenty-three of the principal cities of the country for the month of February, compiled from special reports to Construction News, shows that permits were taken out for the cost of \$14,225,907, against 4,365, costing \$15,607,589, for the same month a year ago, a decrease of 268 buildings and \$1,381,682, approximately 10 per cent, in point of cost, ditions governing that month. There has been an absolute cessation of building op erations in practically all of the citie enumerated because of the excessively cold weather and the heavy snowfalls which have visited almost every part of the tem perate regions. The only surprise is that the percentage of decrease is not greater. The figures in detail are as follows:

In Chicago the conditions have been exceedingly adverse on account of the cold weather. Notwithstanding that fact permits were taken out during the month for 213 buildings aggregating a total cost of \$1,270,310, against 290 buildings, the cost of which was estimated at \$1,225,675, for the corresponding month a year ago, a gain of 3 per cent. Among the other cities showing gains are the borough of Bronx, in New York, 29 per cent.; St. Louis, 13; Los Angeles, 7; San Francisco, 46; Buffalo, 35; Denver, 55; Atlanta, 33; New Orleans, 78; Memphis, 69.
